

How do I find the most recently published items?

Your search results automatically default to being sorted by *Relevance*. This means that the items that contain most of your search terms will be displayed first.

You can change this to sort by *Author*, *Title*, *Date-newest* or *Date-oldest* by clicking on the drop-down menu next to *Sort by*.

The most recently published items will now be displayed first. You can further filter on the left-hand side of the screen.
